

## Our Services

We work with you to give you a **“one-stop-shop”** experience. Our team of experts provide you with support at every step and give you the best professional service.

### **Career Counselling:**

**“What do I want to do in future?”** - We guide you through the maze of questions to find solutions best suited to your profile. We help you to choose the right career pathway based on your interest, eligibility and goals

### **Course Selection:**

With so many courses and universities to choose from, deciding where and what to study abroad can be a hectic task. We are constantly in touch with the colleges /universities we represent, and keep track about the latest variety of courses and programs of study they offer. We offer personal guidance to help you to choose courses that perfectly fit your career aims, personal goals, eligibility and finances

### **University/College Selection:**

We help students get admissions into universities and colleges that best suit their personal, academic, financial and other parameters. The knowledge and rich experience of our counsellors allows students to arrive at the best possible decisions. We will discuss and shortlist and finalize the best options for you. Our advice is non-commercial and is not limited to the universities we represent.

### **Admission Formalities:**

Our admission counsellors will make things hassle free and we will submit your application directly to your chosen college or university. We personally assist you in filling up admission forms and we give special attention to your application, highlighting the areas essential for a well presented application, also assisting with references and the highly essential Statement of Purpose. We function as a link between you and the college/university with regular follow ups with international admissions department which results in quick and positive response

### **Scholarship Assistance**

There are many university-specific scholarships and other government scholarships to attract high performing students . Most of them are limited and each has its own eligibility criteria and deadline. Apart from this many colleges have special fee reduction merit based bursaries. We guide you by providing information and assistance in your scholarship / bursary application or other financial aid

### **Visa Guidance:**

Our education counsellors are well versed with the visa application requirements of different countries and provide assistance regarding visa application. We update ourselves with latest changes or regulations of various countries

We will give you time-tested and latest information on documents required, guidance on financial documentation, visa application procedures, interview preparation through mock interview sessions etc. We guide you with error free techniques using correct protocols & high level of ethics which ensures a strong possibility of successful visa approval

### **Pre Departure**

Once your visa is granted, we offer pre-departure briefing sessions to you and educate you various issues related to your destination. You will need to adjust to the new environment and new culture or life style. Our sessions will brief you about what to pack, different learning styles, expectations and also making you aware of Do's and Don'ts. We also give you good insights on part-time student jobs that can help complement your study and experience. We'll discuss how to stay within the rules of your student visa and help you with some tips on finding a good student job. These sessions gives you and your parents an opportunity to clarify last minute queries and get tips to help you make your experience of studying abroad a truly rewarding one.

### **Value Added Services:**

We will assist you in foreign exchange formalities, accommodation, health insurance, travel arrangements and post arrival issues to ensure that you are well settled abroad.
